### AI PRODUCT DEVELOPMENT LEAD

---

Senior Strategy Data Analyst with 10+ years of experience in healthcare analytics and operational intelligence, currently serving at MetroHealth. Proficient in SQL, Tableau, and data visualization, with a strong foundation in statistical analysis, program management, and agile project delivery. Recognized for optimizing decision support software, enhancing data pathways, and improving patient and financial data accessibility by transitioning updates from monthly to weekly, accelerating time to market. Adept at interpreting complex data sets to support executive stakeholders and drive strategic planning, with proven success in bridging information technology and healthcare to deliver measurable outcomes. Demonstrated leadership in product development, product design, and data analytics by aligning business requirements with enterprise strategic initiatives and creating product requirements documents to guide product improvement and portfolio impact assessment.
